PUBLIC NOTICE

The Whitney Point Central School District has completed the inspection of all schools and buildings to determine the condition of asbestos that is present, and whether any action is required to avoid potential health hazards for students, employees and visitors.

A management plan has been developed in accordance with the Asbestos Hazard Emergency Response Act (AHERA), to ensure the continued provision and maintenance of a safe environment for students, employees and visitors. The management plan includes training of maintenance staff to prevent disturbance of asbestos, periodic re-inspection, surveillance, and limited abatement by trained personnel.

Please note that the comprehensive, triennial inspection occurs once every three years. A surveillance inspection of the asbestos containing building materials occurs every six months, typically during the months of December/January and July/August. Monitoring of these building materials occurs on a continuing basis.

A copy of the management plan is available at the district office. If you would like further information regarding this matter, please contact Mr. Jed Frost, Maintenance Supervisor at (607) 692-8270.

District Vision

To be a community of excellence achieved through a commitment to high performance, morale and involvement.
