June 2015

Dear Whitney Point Community,

I would like to thank the community for their support in passing the 2014-15 school budget! On May 19, voters approved the district budget and the purchase of replacement buses for our fleet. We would also like to welcome our newly elected Board of Education member Eddie Maslin and thank Gene Jordan for his role on the Board of Education over the past three years.

The end of the school year is around the corner and seniors are getting excited about graduation day on June 26! For those of you attending graduation, we will once again be streaming the ceremony in the auditorium. We are hoping to accommodate more people and provide a more comfortable setting for some of our guests who might find the gymnasium a challenging setting.

The last day of school for students in UPK-8th grade is June 23. This will be a half day. High school students' last day will be June 15, with finals and Regents scheduled throughout the end of the year. There is a lot going on in our schools to celebrate the great year we've had and I hope you are able to join us for one or more of the many celebrations in our schools.

The vision of the Whitney Point Central School District, "To be a community of excellence achieved through a commitment to HIGH performance, morale, and involvement" continues to guide the district and keep us focused throughout the year. We strive to provide our students with an education that will prepare them for the world in which they will enter. This year, we were able to offer full-day Universal Pre-K as well as many college-level courses at the high school. In a partnership with SUNY Broome, college level classes were also available to the community and we will continue that collaboration next school year.

We thank our community for your continued and generous support. The children of Whitney Point truly benefit from your commitment to the Whitney Point Schools.

Sincerely,

Patricia Follette, Superintendent).

The Mission of the Whitney Point Central School District is to provide an excellent education ensuring that all children maximize their potential, become contributing citizens, and pursue lifelong learning.
